THE FOLLOWING LETTER APPEARED IN THE MANCHESTER UNION LEADER (5/15/70):

Dear Bill:

I have read your very strong editorial in the Manchester Union Leader, and I appreciated the high marks you gave me, along with a few lumps.

Your outspoken comments are a good contribution to the effort to keep the public aware of the necessity for this decision. When American fighting men are on the line, I can do no less with any political considerations than also put them on the line. Your continued support means a great deal to me.

With warm personal regards,

Sincerely,
Richard Nixon

Ohio University -- Students at Ohio University are under orders to pack up and get off campus as quickly as possible. The streets of downtown Athens are lined with National Guardsmen. About 1500 hundred of the guards were called out and cordoned off campus last night after another round of student violence.

Jackson State College, Miss. -- Two students were killed and 15 others wounded when police fired into a crowd inside of and in front of a women's dorm. There have been no verified reports of sniper fire. The only certain provocation was one bottle thrown at the police.

Boston, Mass. -- A large number of demonstrators were arrested Friday when they tried to form a human barrier blocking buses of military inductees outside the main gate of the Boston Army base. There was no violence.

Hanover, New Hampshire -- Dartmouth College President John G. Kemeny today ordered flags flown at half mast at the Ivy League school in memory of the two Jackson State College students killed in a violent demonstration in Jackson, Mississippi.

Kemeny said in announcing the action that the deaths of the two students were similar to the four students killed at Kent State University last week.

Fort Belvoir, Mass. -- Army officials are anticipating a group from three to four thousand anti-war demonstrators tomorrow at Fort Belvoir, Mass. The protest will coincide with Armed Forces Day activities at the base. Most of the protesters will be made up of Boston and Worcester area college students.

Washington -- A 16 member delegation from the "Committee For New Hampshire and Vermont Canvass" brought an anti-war petition to Washington yesterday.

The group, bearing a petition they said carried some 10,000 signatures from the two-state region, met with New Hampshire senators Norris Cotton and Thomas McIntyre.

Kendall-Keystone Camps -- Two UWM students were attacked today by a police informer they exposed at a gathering in front of the Federal Building in Concord. Police reprimanded the students while the informer (who had swung fists) was given a token reprimand. Apparently fearing a violent confrontation, the Concord riot squad was called in -- all five of them. The squad could only utter a collective grunt. Laughter ensued from the crowd. There was no further violence.

St. Anselm, Manchester -- There will be a public debate between Noam Chomsky (H.I.T.) and Professor Sampo of the St. Anselm's political science department on "The role of the student in the university and the university and society" Wed., May 20th, 8:00 PM in the Lower Chapel.

THE WEFERS TRIAL IN CONCORD FRIDAY

Criminal contempt proceedings against Mark Wefers lasted ten hours Friday. Wefers faces a possible one thousand dollar fine or six months in jail for encouraging Rubin, Collinger and Hoffman to speak at the University last week.

Federal Court Judge Bownes held that the trio had a right to speak, but that the University Trustees were justified in setting the time limit.

Friday’s Court session was broken up at 10:45 when a fire alarm went off. Judge Bownes told the court that the alarm meant that there had been a bomb scare. However, others believed that someone had simply pulled the fire alarm.

A group of approximately 300 students had gathered outside the courthouse in support of Wefers. Attorney William Shea of Dover, representing Wefers, said the majority of the students felt that President McConnell should be sitting beside Wefers, since if Wefers has violated a court order, then certainly McConnell has also. At the end of the trial it was stated that the final verdict would be handed down by May 25th.

OTHER LATE NEWS

Plymouth State——The essay, “Student as Nigger” was circulated among students May 15. A twelve year old girl received a copy and gave it to her father, who called the president of Plymouth State. Subsequent to this, the head of the Student Co-ordinating Committee was forced to resign by the president!!

Princeton, N.J.——U.N.D.O. representative at Princeton has received 11,000 draft cards from interested and concerned peoples.

Also...

The U.N.D.O. (Union for National Draft Opposition) here (in the MUB) is following the example and accepting draft cards from those of you who wish to discard them.

Military 'rts Dept., continued...

PLEASE AFFORCE BASE IS HAVING AN OPEN HOUSE TODAY, AND OF COURSE EVERYONE IS INVITED. The following aircraft will be on display: B-52’s Strato Fortresses, KC-135 Strato Tankers, C-124 Globe Masters, and C-47s. There will also be none other than a sentry dog demonstration (want to be a volunteer?) and to top it all off a choir will sing. This is all happening between 11 A.M. and 4:00 P.M. People interested in going early should not miss anything should meet in the Union at 10:30 A.M., and bring cars. It would be nice for PEASE to have some students drop in for a rap...(all sides must be aired, etc.) And an open house means that anyone can drop in, any old time.

On a more humanitarian note,... The Day Care Center which has been set up in the Community Church in Durham needs more volunteers, both men and women, to help staff. There is a sign-up sheet in the Striker Information Center in the MUB where you can put your name and telephone number and the hours you can work.

THE STRIKE DAILY also needs more people to relieve us in such inspiring areas as typing (Late evening). We are particularly desperate for people to distribute in the morning (early). If you can help come to the Student Government Office at around 8:00 A.M., or even later if you can’t get out of bed that early.
