"The trial of Bobby Seale is the best possible point of departure for a new surge of white support for black liberation. If ours was the most important trial of the century, the trial of Bobby will determine what we have done for Bobby, and have done for Bobbys, as far as we'll ever be judged by our deeds.

TOM HAYDEN

COMMUNE UNIVERSITY OF NEW HAMPSHIRE
The NOA Strike Committee, in coordination with the Junior Class and certain administration members, attempted to make Parents' Weekend an innovative and educational opportunity for the presence of the latest events here at UNH. The weekend was largely a failure due to the lack of cooperation between the administration and the Strike Committee. The meetings on both Thursday and Friday to incorporate our rally, workshops, and our sit-in were well-planned, but after compromisings largely on our side, we worked out a compromise schedule. Our workshops Saturday morning went smoothly but the rally began an afternoon panel discussion set up by the original Parents' Weekend Committee. As our compromise, the panel was composed of rhetorical faculty members, the President, and one which was not a member of the Strike Committee. A panel was all made, the President and my father, Henry English, were present to give the striking religion.

It had been previously agreed with Assistant Dean of Students, Donald H. Goleman, that we would be allowed to announce our workshops at the completion of the program and have students present in their respective areas. President MacGillivray, however, concluded the program before allowing the announcements and had the microphones disconnected. Begin a panel of five speakers. Whether or not it was planned ahead of time (and it was), we should be given a chance to speak.

Today, Sunday, many students on strike were supposed to be honored at the Honors Convocation for their "invaluable achievement" for the year 1969-1970. The awards are to be given to students in order to fulfill this honor. Because of the atrocities taking place in the world today, we feel that the ceremony is irrelevant, non-functional, artificial, and does not serve to build the prestige of those students honored and their parents. We agreed that we must convey these feelings to the public at this audience. By asking secretary Keensley and President MacGillivray, for a few minutes at the end of the program, we were refused this right to speak. First, because the program was planned, and second, because our point of view was being represented by 30-year-old Harry Anyone, well-known for his peace protests, who was speaking just before our group. (Point of interest: a second honorary doctorate was being awarded to the President of New Hampshire's Public Utilities. This is a typical example of administrative priorities and the respect it receives.) After showing our opposition to this form of hypocritical honor, we approached MacGillivray again asking for a few minutes. Denied because of the benediction which was scheduled next, we attempted to demonstrate at the end of the conventional to address the parents. To our humiliation, the microphone equipment had been disconnected. This incident has reinforced and proved a feeling that we have no voice through proper channels and that freedom of speech is not the honor students involved today. We have decided to stand a chance from the University and that all parents will do as by signing the petition being circulated.

The entire atmosphere of the weekend, as elaborated by McCormick and Company, our that the University is not on strike, that exams and class work is in normal function of the school which continues as usual. He was attempting to appease the parents, to coordinate that no change has occurred in the University. How the hall parents parents could believe that having given the Strike Committee, I don't know. Due to Mark Klein's speech and our efforts to the workshops, it appears we did make some parents aware of what is going on.

McCormick is two-faced. At one of our forum lectures, he endorsed everything in the parent's address given by Scott Johnson that included the strike. McCormick knew we would have to talk to a strike as well. All he has to do is look at the recent student strike or the NOW. And yet, McCormick changed his tone as soon as the taxpayer showed up.

Furthermore, McCormick has directly denied us our freedom to speak out and to criticize faculty that attempts at cooperating and coordinating with the administration absolutely futile and that in our country today, freedom of speech is ful

CONCORD, NH
Author Meldrim Thompson today called for a special session of the N.H. Legislature to prevent future appearances by militants such as the Chicago 8 last week at UNH.
Thompson, a potential conservative Republican candidate for Governor said state officials should have acted more firmly to prohibit the appearance of Abbie Hoffman, Jerry Rubin and David Dellinger at the Durham campus last Tuesday.
Thompson said, "We will not long survive as a state or nation if we cannot protect the lives of those who by inflammatory and provocative words would incite the violence of our government."

BRYANT COLLEGE, RHODE ISLAND

TO: Strike Committee c/o Student Government
FROM: Bryant College Strike Steering Committee

As part of our extensive non-violent dissent of President Nixon's Southeast Asia policy we are requesting that all colleges and universities incorporate two additional actions:
1) Students at all colleges and universities write their respective Congressmen requesting their immediate return to their state to discuss the country's involvement in Southeast Asia.
2) A Nation-wide day of political lobby in Washington, D.C. scheduled for May 15, 1970. A delegation from each school is being requested to lobby with their statesmen. Anyone wishing to aid the Bryant students please contact the Student Senate--421-6840, ext. 247, or Strike Headquarters--Bryant Gym.

PLEDGE FOR PEACE

Basic Question #1: Have you come to realize that the possibility of a military victory in Vietnam has become futile, esp. since the recent involvement in Cambodia?
Basic Resolution #1: Probably yes—but you're most likely in doubt about what you can do.
Basic Question #2: Have you suspected that select industrial interests in Southeast Asia are often one of the causes for its prolongation?
Basic Resolution #2: Probably yes—but you're most likely in doubt about what you can do.
Basic Question #3: Have you often been told that the only way to effect political change is through the political process?
Basic Resolution #3: Probably yes—but without the vote you are most likely in doubt about what you can do.

The Economic Boycott Committee of Drew University is now offering a resolution for all students willing to work on a two-fold program for peace. Forst, students are asked to boycott over the summer 2 or 3, or all of the following items (records, cosmetics, clothing, gasoline, movies, TV and radios, soft drinks, drugs, tobacco goods, magazines, novelty items) which they personally deem a luxury and unnecessary. Logically, this will produce a decreased personal expenditure. We then ask students to pledge a certain amount of this unspent money at some time over the summer or at the beginning of school next fall for use towards campaign costs of individual peace candidates or the New Congress for Peace. In this way, you are exerting a perceptible pressure on the economy as a symbolic protest while, at the same time, constructively raising money for a practical and effective approach to peace.

We, the students of Drew University, propose that Friday, May 15, 1970, be set aside as a national Letter-In Day. We ask that all college and high school students take some time out on this day to write a minimum of two letters expressing their feelings against the Indochina war. These would be sent on that day to their respective Congressmen and Senators in Washington. We urge that all concerned participate so that the government of this country will have some physical proof of the views of the students throughout the country.

The importance of this measure is that it is national and will occur on one set day. We
LOCAL STUFF AGAIN...

Encourage you to publicize (in the manner you feel best) not only at your school, but also throughout the area. Also contact your neighboring schools. Remember, Friday the 15th is the important day. If all the letters are mailed on that day, we can have a huge effect. Thank you and the best of luck. If you have any questions, these may be addressed to: Drew University Letter-In Committee, care of the Student Government Association, Drew University, Madison, NJ 07940.

REALITY BUSTERS (FORMERLY THE DENY IT OR NOT DEPT.)
AGAIN TO BE TRIED—Vice-President Agnew will be arraigned in court today steaming from charges of crossing state lines with the intent to riot. It was reported that Agnew was in New York with the children of the White House janitress visiting the Bronx Zoo when he farted and every animal in the zoo went berserk. One incident has already been reported. A wiz of a monkey, known for his wild and skillful maneuvers in the field, Tricky Dick, was found in a psychiatrist's office, lying upon the couch and actually uttering words something to the effect of "I am the President, make no mistake about that." The monkey has been returned to the zoo and is under heavy sedition...and is now considered to have been rendered harmless.

CITIZENS DAY
The Citizen's Day Committee needs volunteers to help with the making of posters to sponsor Citizen's Day this Saturday. These posters will be placed around the state inviting state legislators, state senators, but most importantly, citizens to attend workshops to be held Saturday, May 16. President McConnell has okayed the plan. All interested in helping
with the posters, come to Conant Hall TODAY at 7:00 pm.

CITIZENS DAY FLASH! (suddenly it's all clear to us...)
Next Saturday will be a CITIZENS DAY here for all New Hampshire residents. Please contact your parents and your neighbors. Time will be from 9-9. Any faculty interested in workshops with people for Saturday, please call Strike Information 862-1280, and leave your name and a time you could come.

The Board of Trustees of the University of New Hampshire in Durham, NH, announced today that due to circumstances beyond their control, three of them could not take their dog out for a walk at the usual time. The names of the unfortunate three are not available at this time.

THE STRIKE AND ITS GOALS - Chuck Theodore

(Chicago---UPI) THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION SAYS IN ITS CURRENT ISSUE THAT "INDISCRIMINATE USE OF D-D-T AND OTHER TOXIC MATERIALS...SHOULD BE STOPPED." THE JOURNAL SAID THE USE OF D-D-T, HOWEVER, MUST CONTINUE UNDER CERTAIN CONDITIONS UNTIL SOMETHING LESS DANGEROUS BUT EQUALLY EFFECTIVE IS AVAILABLE. THE PUBLICATION SAID INDUSTRY SHOULD HASTEN THE DEVELOPMENT OF MORE SPECIFIC PESTICIDES WHICH PERSIST ONLY LONG ENOUGH TO ACCOMPLISH THEIR PURPOSE. FK812A5/11CDT

The three national goals of the Student Strike are: 1. complete withdrawal of all U.S. troops from Indochina, 2. the freeing of all political prisoners, and 3. an end to ROTC and all war-related research. Along with these goals, local and regional goals have been established, such as the freedom of speech issue here at the University. But what has happened to the two most dangerous problems we have facing us at this very moment--population growth and pollution?

Ecology has been buried. The reason is clear and simple. Look back at what instituted the strike: Nixon's invasion of Cambodia and the death of five Kent State students. These two incidents could be seen as directly and immediately affecting our lives. Their effects were felt by students and adults alike across the nation. There was no need for long, involved and detailed rhetoric explaining the possible and potentially dangerous results. Action was implemented without delay.

But population growth and pollution are situations which we feel we have an abundance of time to deal with. Their effects are practically invisible in the eye that sees each day as a day in itself. It seems to us that we were no worse off yesterday than we are today.

The purpose of this paper is not to belittle the importance of the strike's present goals, but to bring light other additional goals that should be placed side by side with the already existing ones.

In any event, we ARE doing something. Maybe this is the correct order of objectives to be met. It can be easily seen that with the end of the War, most of the money can be steered into other programs such as population control and pollution. And it can be easily seen how racial tensions would be eased and how racial problems would gain new light when the truth of the Black Panther issue is presented. But if we allow our environment to continue to die, if we will our numbers to continue to increase, then we will have no one to fight wars, no where to fight—for no one will be alive to do so.
ATLANTA - Georgia Governor Lester Maddox charged that news coverage of campus protests has caused violence and continued disturbances. At an Atlanta news conference Monday, May 11, Maddox called on the media to cover activities of "Decent, responsible students", rather than what he called "the hippies...parasites...and anarchists and long hairs."

CHICAGO - The JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION has stated in its current issue, that "The indiscriminate use of D-D-T and other toxic materials should be stopped." The JOURNAL also said, however, that the use of D-D-T must continue under certain conditions until something equally effective, but less dangerous, is available.

WASHINGTON, once again - President Nixon met at the White House during the day with 46 of the nation's state and territorial governors. His purpose was to assure the state leaders of the rightness of his Asian policy and seek their help in calming down the student protest the policy has caused. Mr. Nixon called the session last Thursday, after the violent dissent in various states forced the cancellation of the G-O-P governors conference in Santa Fe, New Mexico. Also in attendance at the meeting were Vice President Agnew, Secretary of State William Rogers, and other cabinet officials and White House advisors.

AGNEW'S ANALYSIS - The VP has reportedly asserted that "anti-intellectuals" have taken over the nation's universities. In his words, "We have to re-establish authority on the campuses." "We"?? "Authority" ??

BOSTON - In relation to disturbances in the dorm section of the Northeastern campus, the faculty was meeting all afternoon and morning and about 7 P.M. Mon. night they voted overwhelmingly to march in an orderly fashion over to the campus dorm section and protect these students of the university from the Boston Tactical Police Force. The Boston TPF will be in that area Monday night between approximately 8:00 P.M. and 9:00 A.M. This was information given by Mayor White. There is an 8:00 curfew at the dorm housing area of Northeastern and related streets.

WORD FROM CONNECTICUT- The University of Connecticut has just sent us word on another way to mangle the draft and keep it from functioning. Schools have established committees of people to call the local draft boards continuously and tying up the lines by asking asinine and irrelevant questions of them. This will tie up their lines so that they can't possibly make any out-going calls and will help a great deal in keeping the draft boards from conducting "business as usual."

A WORD TO THE WISE DEPT.

It is well known that there are undercover police agents on this campus particularly in the LIBERATED AREAS...specifically, one such person was uncovered last Wednesday. Such persons have been known in the past to do illegal things to get other people busted, and this is something that should be thought about very carefully. The whole strike is in a very vulnerable position in terms of these things, and the Union and WSBF are particularly vulnerable -- a bust of any kind would be super bad news for the strike at this time or at any time. People are working their asses off to make something good and worthwhile out of this University through this strike, and it would really be shitty if it all went down the drain because of a dope bust... picture what Leob would do with that??

NATIONAL NEWS

BOSTON
More than 250 anti-war protesters were arrested today, Monday May 11, when they refused to end an occupation of the Worcest Massachusetts Draft Board. The arrests came after Police officials warned the protesters, most of whom were from Holy Cross College and Clark University, that they were trespassing by their presence on the seventh floor of the downtown commerce building. Police took the demonstrators out one at a time. There was little resistance, no incidents and no injuries were reported.

CAMBRIDGE
In Cambridge more than 100 militant Harvard University students continued their picketing of a primary administration building, despite warnings that the protest could lead to severe University penalties.

ALSO FROM CAMBRIDGE
Dean Ernest of Harvard filed University charges against 40 picketing students strung out around University Hall. The picketers refused to leave despite his threatening more charges if the picketing continued.

CONNECTICUT
At the University of Connecticut at Storrs, about 5,000 students planned to "redecorate through the use of brightly colored paints an open bay hanger of the ROTC building. The students want to convert the World War II hanger into a Day Care Center for University employees.

WASHINGTON
A group of students from Dartmouth College calling itself Continued Presence in Washington (CPF) said it would remain there to organize a peace lobby. It has contacts with 20 colleges across the nation.

SAIGON
The U.S. Command reports American troop strength in Vietnam increased by 1200 men last week. In its weekly statement from Saigon, the Military reported 428,750 Americans on duty in War Zone as of May 7th. That total is still below the 434,000 man call set by President Nixon.

CALIFORNIA
A California student who set himself on fire to protest the war is dead. Twenty-three-year-old George Winne, a junior, died early Monday morning, May 11th, at Scripps Memorial Hospital in San Diego.

Winne was a History Major scheduled to graduate next month, he doused himself with gasoline and ran blazing through a crowd that attended a rally last night at the University of California in San Diego. A student who tackled Winne and helped put out the flames suffered third degree burns on his hands and face.

WASHINGTON AGAIN
A suit filed in Washington today would force 122 House members and Senators to give up their commissions in the reserves and the National Guard. A group of anti-war Reservists and Guardsmen contend in the suit that it is unconstitutional for Congressmen to hold any position in the military because it leads to a conflict of interest.
