POWER OF

TRUTH

TUESDAY MAY 19

MALCOLM X (1929-1964): The most eloquent and articulate spokesman in modern times, Malcolm Little (who later changed his name to X to conform to Muslim teaching) was a well-educated man. His many speeches clearly told his listeners that they must now make up for past inequities. "We should be peaceful, law-abiding—but the马 is the porc. We fight back in self-defense whenever we are unjustly attacked. If the government thinks I am wrong for saying this, then let the government start doing its job."

the the rioting last Monday night.

WASHINGTON - Black congressmen today made a bitter assault on President Nixon.
Missouri Rep. William Clay, saying he speaks for the other 8 Black House
Members, charged that the White House has for 3 months ignored the requests
of the group for a meeting with Pres. Nixon. Clay said alienation between the
Black populace and the president is severe. He criticized what he called
"the conscious, well publicized effort" of the administration "to retreat
from pursuit of freedoms for Black citizens." The Missouri democrat said
the Black House Members have been trying since Feb. 18th to confer with
the Pres. He said a White House assistant told him in April that Mr. Nixon's
scheduling is just too full and there was no opportunity in the immediate
future. Clay complained that the President has entertained hundreds of for-
foreign diplomats but has no time for the elected representatives of
Black America.

WASHINGTON - The pentagon today admitted for the first time that American
troops acting as advisors may accompany South Vietnamese forces on raids
inside Laos. "at the Florida White House insisted there are no American grou
ground forces in Laos and no change in activities there. The defense
depart identification said that US advisors can go into Laos if the South
Vietnamese troops they're with take "protective reaction."

Laws and rules have always been made to serve the people. Rules of society are set up by people so that they will be able to function in a harmonious way. In other words, in order to promote the general welfare of society, rules and laws are established by men. Rules should serve men, and not men serve rules. Much of the time, the laws and rules which officials attempt to inflict upon poor people are non-functional in relation to the status of the poor in society.

These officials are blind to the fact that people should not respect rules that are not serving them. It is the duty of the poor to write and construct rules and laws which are in their better interests. This is one of the basic human rights of all men.

Before 1776, white people were colonized by the English. The English government had certain laws and rules that the colonized Americans viewed as not in their better interests but as colonized people. At that time the English government felt that the colonized Americans had no right to establish laws to promote the general welfare of people living here in America. The colonized American felt he had no choice but to raise the gun in defense of the welfare of the colonized people. At this time, he made certain laws insuring his protection from external and internal aggressions from governments and agencies. One such form of protection was the Declaration of Independence, which states: 

"Whenever any government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness."

Now these same colonized peoples, these exslave robbers, and thieves, have denied the colonized black man the right to even speak of abolishing this oppressive system which the white colonized American created. They have carried their madness to the four corners of the earth, and now there is a universal rebellion against their continued rule and power. The Black people in America are the only people who can free the world, loosen the yoke of colonialism and destroy the war machine. As long as the wheels of the imperialistic war machine are turning there is no country that can defeat this monster of the West. But Black people can make a mal-function of this machinery that's enslaving the world. America cannot stand to fight every Black country in the world and fight a civil war at the same time. It is militarily impossible to do both of these things at the same time.

(Continued on next page.)
IN DEFENSE OF SELF-DEFENSE (continued)

The slavery of blacks in this country provides the oil for the machinery of war that America uses to enslave the peoples of the world. Without this oil the machinery cannot function. We are the driving staff, we are in such a strategic position in this machinery that, once we become dislocated, the functioning of the marauders of the machinery breaks down.

Risen up in the politics of America, surrounded by his factories and all the physical components of his ecologic system, we have been made into "stretched of the earth," who are relegated to the position of spectators while the white racists run their international con game on the suffering peoples. We have been brainwashed to believe that we are worthless and that there is nothing we can do for ourselves to bring about a speedy liberation of our people. We have been taught that we must please our oppressors, that we are only ten per cent of the population, and therefore, we confine our tactics to categories calculated not to disturb the sleep of our tormentors.

The power structure inflicts pain and brutality upon the people and then provides controlled outlets for pain in ways least likely to upset them or interfere with the process of exploitation. The people must remap the channels established as tricks and deceitful sources by the exploiting oppressors. The people must organize everything that the oppressor supports and support everything he opposes. If the black people can see their struggle for liberation in the way that the oppressor dictates and sponsors, then we will have degenerated to the level of groveling flunkies for the oppressor himself. Then the oppressor makes a vicious attack against the freedom fighters because of the way such freedom fighters choose to see about their liberation, then we know we are moving in the direction of our liberation. The racist oppressors have no rights which the oppressed black people are bound to respect. As long as the racist does pollute the earth with the evil of their actions, they do not deserve respect at all, and the rules of their code, written in the peoples' blood, are beneath contempt.

The oppressor must be harassed until his soul must move at once by day or by night. The slaves have always outnumbered the slave masters. The power of the oppressor rests upon the submission of the people. When black people really unite millions in all their scattered millions, they will have the strength to avenge injustices. They do not understand the power of our numbers. We are millions and millions of black people scattered across the continent and throughout the Western hemisphere. There are more black people in America than the total population of many countries that now enjoy full membership in the UN. They have power and their power is based primarily on the fact that they are organized and united with each other. They are recognized by the powers of the world.

With all our numbers, are recognized by no one. In fact, we do not even recognize our own selves. We are masters of the potential power latent in our numbers. In 1967, in the midst of a hostile racist nation whose hidden racism is rising to the surface at unnecesary speed, we are still well below our critical fight for our very survival that we are continuing to function in a futile way. Divided, confused fighting with ourselves, we are still at the elementary stage of throwing rocks, hiding empty wine bottles and beer cans at racist cops who lie in wait for the chance to murder innocent black people. We can no longer afford the dubious luxury of the terrible casualties wantonly inflicted upon us by the cops during these monstrous rebellions.

Black people must not move, from the grassroots up through the perfumed circles of the black bourgeoisie, to realize objectives necessary a proportionate share of the power vested and collected in the structure of America. We must organize and unite to resist by long resistance to brutal force used against us daily. The power structure depends upon force without retaliation. This is why they have made it a felony to teach guerrilla warfare. This is why they want the people unarmed.

Hey guy, what is this shit?
On May 8 two girls who were attempting to distribute THE STUDENT MILY in the Serv building were told that students were not allowed in the building and arrested by yesterday, students were again denied admittance to the Serv building. I guess this means that students can't be there to pay their traffic tickets anymore. At least it's good to see that we still have freedom at college, eh?

Hey, hey, what is this shit? - Power-Flow Division

Saturday the board of Trustees decided that 24-hour varietals would undermine our morale. THE STUDENT MILY is pleased to announce that 24-hour varietals are now in effect for anyone who wants them. WILL YOU TO THE PEOPLE!
SELF DEFENSE CONTINUED

The racist dog oppressor fears the armed people; they fear most of all Black people armed with weapons and the ideology of the Black Panther Party for Self-Defense. In unarmed people are slaves or are subject to slavery at any given moment. If a government is not afraid of the people it will arm the people from for 1an aggression. Black people are held captive in the midst of their oppressors. There is a world of difference between thirty million unarmed, submissive Blacks and thirty million Black people armed with freedom and defense guns and the strateg method of liberation.

When a mechanic wants to fix a broken-down car engine, he must have the necessary tools to do the job. When the people move for liberation, they must have the basic tool of liberation: the gun. Only with the power of the gun can the Black masses halt the terror and brutality perpetuated against them by the armed racist power structure; and in one sense only by the power of the gun can the whole world be transformed into the earthly paradise dreamed of by the people from time immemorial. One successful practitioner of the art and science of national liberation and self-defense, Brother Hau Tso-tung, put it this way: "We are advocates of the abolition of war, we do not want war, but war can only be abolished through war, and in order to get rid of war it is necessary to take up the gun."

The blood, sweat, tears, and suffering of Black people are the foundations of the wealth and power of the United States for America. We swore to do what America, and if forced to, we will tear it down. The immediate result of this destruction will be suffering and bloodshed. But the second result will be perpetual peace for all mankind.

WOMEN'S RESOLUTION

In order to assure equality of status and opportunity of women strikers, we make the following demand:

That 50% of the committe chairman and the members of the Steering Committee be Women. We women pledge that if this demand is not met, we will not allow another committee connected with the strike to go on.

We also urge that the following areas of discrimination be actively dealt with through a strike committee and that the area of female liberation be incorporated as a goal of the strike:

1. A Day Care Center funded by the University for the community, be established.
2. An end to discriminatory student rules, ie, women's curfews, etc.
3. An end to job discrimination, ie, unequal salaries for women, dress codes for women, etc.
4. Birth control information and materials for all women at Hood House.
5. Women's Liberation material should be made available at the Library.
6. An end to discriminatory admissions policies.
7. Finally, we urge that a woman speaker be contacted to speak on the behalf of women strikers at graduation.

GUEPRILLA THEIRTEP

A Chem 404 class was watching a movie Monday in Parsons when a community guerrilla theater group burst in with a 45-second bit contrasting public reactions to the Orangeburg S.C. and Kent State murders and then turned out the lights and quickly left. Shortly thereafter the troupe burst into a Math 426 class, and shortly thereafter someone burst into a deans' conference with a report of the students with shotguns disrupting classes in Parsons and Smaulding. Campus security police were alerted and intercepted the troupe before its 11 AM performance, confiscating an unloaded 12 gauge shotgun which was used as a prop.

When the group went to the Service Building to get a receipt for the gun, two policemen and the assistant superintendent barred the door. Supt. Hildreth had given orders that only two people be allowed in the building to pick up the receipt. The troupe felt they were all equally responsible and asked that Hildreth see all eight of them. Hildreth refused, and also refused to come out and hand the receipt to the group, or even to send it out. His underlings carried out the message that it was a "police matter". Dean Schofield came to talk to Hildreth, but with no success. Hildreth was either very untruthful or on an ego trip, or both. After an hour standing in the rain, the group left. Five returned later that afternoon and had to force their way into the Service Building past the police. Confronted by the five in the hall outside his office, the assistant backed down and came out with the receipt. However Hildreth said "T-Hall said" that there was to be no more disruption of classes by guerrilla theater groups. Students interested in having the skit performed in their classes should contact the Strike Daily.

PACISH COMMITTE.

There will be a very important meeting of the Pacish Committee Tuesday May 10, at 1:30 in the Senate Room. Objectives will be discussed, goals will be set.

HELP

Help! Your canvassing effort has been fading off due to a lack of canvassers. The distribution center in SBE 314 is open between 9 AM and 5 PM to give out materials and maps. Anyone willing to spend a little time talking to people is urgently needed. There is a large area left to be covered. Orientation workshops on presentation and the issues involved are also offered every night at 9 PM, SBE 208.

It has been reported to the Strike Daily staff that this past week-end a group of men decided to take it upon themselves to 'liberate' Randall Hall. This was attempted against the will of the women residents. Although we feel that the dorms should be liberated the decision should be left up to the residents rather than outsiders particularly when the happen to be men who would like women dorms opened 24 hours for their own purposes.

Last night, Monday, reporters from the UNIV DAILY speaking on channel 9 mentioned that there was one professor who had not allowed to have his classes disrupted the day the Chicago 3 spoke—his name was Prof. Ham Smith. Nothing so powerful as the truth???
