So that students can become a viable force in changing the American Political system and in hopes that our decision be adopted by the University: Be it re-

solved that the teaching faculty and students of the University of New Hampshire Hotel Administration Program move the normal Hotel Program activities be suspended for two weeks prior to the National Election in November of next year. Secondly, it was moved seconded and passed that this resolution be presented to the WSBE school and the University Senate for adoption. The vote was 79 for and 1 against. We need YOUR HELP. This must become a total effort on the part of the University.

An ad hoc committee has been formed to deal with any conflict of interest that may arise between students and faculty. If you are being penalized for opening the University, call: Jeff Crawford, Bert Klinger, Debbie Duninn, or Jeff Atrill, at extension 2-2360 or 2-2351. The committee is located in Conant Hall (Tsaeh. UNDO (Union for National Draft Opposition) is a national committee to flood the draft boards with so much mail and confusion that the boards will shut down. This committee is in operation around the country, the local one being located in the MUB. The following actions are planned:

1. All men should apply for C.O. status now, regardless of their present statement status.
2. All women will register for the draft now, and apply for CQ's.
3. People should sign the petition which reads: We, the undersigned declare that we are conscientious objectors to the Indo-Chinese War. We therefore commit ourselves to applying to our draft boards for CQ status-regardless of our present classification.

Anyone interested in finding out more about UNDO should come to the Union.

Coke Boycott: Student strikers are conducting an economic boycott all across the nation against the Coca-Cola Company and the products it owns or controls. Therefore, the following junk should not be purchased:

UH-TEH-SHUN! The Rotsoe Marching demonstration planned for this weekend has been cancelled. We don't know why, they changed the march, but we must be doing something right.

Buffalo-- Students and police battled at the campus of the State University of New York at Buffalo. A dozen students were wounded by birdshot which police say was fired by other demonstrators. Right!

The student Mobilization Committee in Washington has received telegrams from South Vietnamese student groups urging demonstrations in the U.S. S.M.C. says the telegrams were transmitted through Hanoi.

Organizers of the Anti-War rally in Washington planned for this Saturday say they will heed a Federal Court order to stay away from Lafayette Square, across from the White House. They do, however, plan to move into the ellipse area behind the square--which has all been declared off limits. Right On.

Kent State-- The last contingent of National Guardsmen left the campus of Kent State University this morning, leaving in their wake the bitter memories of their presence--the four students they killed.

Wall Street-- Another demonstration gathered on the financial capital of the world today. This demonstration is aimed at pointing out the financial network which is responsible for the maintenance of U.S. military bases and actions all over the world and most blatantly in Indo-China.

New York-- At Hamilton College in Clinton, New York, a National Bond Redemption Committee has been established. All people who feel that they can be sympathetic with the following statement:

"I cannot support my government's action in Southeast Asia and can no longer in good conscience lend my financial support to this policy. Therefore, if the United States military and political intervention in Southeast Asia has not terminated by July 4, 1970, I pledge to redeem my U.S. Savings Bonds immediately."

Any people who are interested in this course of action are asked to send their name, address, total number of bonds, total value of the bonds, and the serial numbers of the bonds to the:

Optimistic news from Illinois: The State has dropped the charges against the 7 Panthers that were charged with attempted murder after Police had ambushed and killed two Panthers in bed. Maybe the government is starting to take notice! ALL THE POWER TO THE PEOPLE.
An open letter to parents:

Parents' Day has traditionally been a time for parents and their sons and daughters to get together and share some of the more redeeming aspects of university life. This year, Parents' Day will be different. For the first time, students, instead of administrators, will decide what they want to share with their parents. The University will reflect the real spirit and feelings of its students; instead of the traditions that you, as parents, may well recall.

The times have changed, and students with them; the gap between you and us may be large or may be small. There may be great differences in the way we live, and dress, but the way we are acting today and the things we have been doing for the past week are due, in part, to you as parents. We hate war because when we were young, you taught us to love all people. We abhor the deaths of black people and of our fellow students at Kent State College, because once we learned that life was sacred.

This Parents' Day, that students have organized is a vital effort to relate to parents, the emotion and meaning of the strike at the University, the National Student Strike, and the demonstration in Washington this weekend. We hope you will all join us in workshops and discussions, and in our efforts to stop the war and end repression in our country.

The US Savings Plan:

Simmons College has begun a campaign to withdraw money from the National Defense Budget by encouraging citizens to either sell their US Savings Bonds (US War Bonds) and to refuse to purchase new bonds.

Sen. McGovern recently requested an amendment in the Senate which presents a timetable for withdrawal of US troops from Indochina. This timetable proposes that all US troops be out of Vietnam by June, 1971; out of Laos by Dec., 1970; and out of Cambodia within 30 days of the signing of the bill. Among the senators in support of McGovern's amendment are: Church, Hatfield, Goddell, Cranston, Young, Bayh, Ribicoff, McCarthy, and Kennedy.

The Columbia Action for Peace Committee sent a telegram to the UNH Strike Co-ordinating Committee, asking us to co-ordinate support in New Hampshire for the bill. The following was our reply:

"The striking students vehemently oppose the McGovern Amendment to extricate US troops from Indochina. We demand total withdrawal of all US forces immediately. We will not serve as the NH co-ordinator for this activity."
