My darling Emmy,

I am getting discouraged. I cannot see why there is no letters for me. It is now 4 weeks since I wrote you to direct your letters to this place.

It seems as though there had been time enough for a letter to reach me if you had received my first letter.

But I will not try to imagine reasons. I found the Pay Mater yesterday and got paid to the first of Jan. I will express you some tomorrow, and more in a short time. I cannot write, and will not try again till I get a letter from you. Do write darling. You can not imagine how much I want to hear from you.
